Announce Changes in Master Farm Awards

Changes in the Alberta Master Farm Family Award program were announced recently by Agriculture Minister H.A. Ruste.

Although the maximum number of awards will still be limited to five, two Master Farm Families may now be named in one region of the province. This change is being made because there were years when more than one family qualified for the award in one region, while there were no qualifying families in another region. Mr. Ruste said that where the standards of selection are so high, he would like to see qualifying families be recognized.

In calling for nominations for the 1969 Master Farm Family Awards, Mr. Ruste also said that more emphasis will be given to the business management aspects of farming in this year's judging. The award program was designed to honor farm families who have achieved notable success in farming, home making and citizenship and who demonstrate the practices that bring farm and family progress and to indicate the advantages of farming and farm life.

Nominations for the Master Farm Family Award must be proposed and signed by at least three neighbors, accepted by the nominee and filed with the District Agriculturist or District Home Economist by July 15th. Nomination forms are available from district extension offices.

The nominees will be judged later in the summer and the winners will be awarded $1,000 cash, a suitably engraved plaque and a gate sign.

Students who contributed most to the Student's Union last year were named at last Friday's general assembly at Frank Maddock High School. Selected for the awards were, left to right, John Braybrook, Margaret Hammerlindle, Jean Simon and Fred Kaarsemaker.

BERRYMOOR NEWS

We are sorry to report that little Karen Berry is once again a patient in an Edmonton hospital. May she be able to come home again soon.

The principal of the Lindale, School, Mr. Radnunsky, motored to Calgary recently where he received his Masters degree at the convocation excercises held at the university in that city. Mr. Radnunsky was accompanied by his wife and sister.

Mrs. Lillian Hildebrand and her family were weekend visitors at the home of her sons, Brian and Dwayne Thorsen. Mrs. Hildebrand is attending classes for adult education in Calgary. Her goal is to become a lab technician.

The May meeting of the Berrymoor Three B's Club was held at the cemetery on May 31st, with the assistance of members, visitors and a number of men a very creditable clean up job was done. The trim appearance of the cemetery is a reflection of the work that was done. A sincere thank you to everyone who helped.

Mr. and Mrs. Walter Joneson and family of Edmonton spent the weekend at their farm home.

A number of local folks attended the Lariat Gymkhana Club events in Drayton Valley on Sunday. We understand that some of these folks were participants and also brought home some ribbons.

The spring achievement day of the Lindale 4-H Swine Club was held on Saturday. But we do not know who the winners were.

It is a pleasure to be able to report that Mrs. Ruth Berry is feeling much better after a long stay in an Edmonton hospital.

Dennis Haight spent the weekend with his family.

Awards night for the Breton High School was held on Friday evening in Breton. We would like to congratulate all those who were winners of awards. A number of Berrymoor folks attended the presentations.

FISH & GAME NEWS

At its regular monthly meeting last Thursday evening, the Pembina Oilfield Fish and Game Association learned that work on the new outdoor rifle range was underway on the David Schmidt property south of town.

A small work party started clearing and measuring last Sunday and ranges up to 250 yards were assured. Further work parties will be called through this column in the near future.

The meeting was addressed at length by Mr. Klaus Sonnenberg, Assistant Chief Junior Forest Warden for the Province of Alberta who presented a series of slides and a film outlining the work of this organization. Plans for the possible formation of a local club were also indicated.

For further information on these and other Fish and Game activities, readers are asked to please watch this column weekly.

Victory Supper, Program Planned at Entwistle

The Sunday School contest between the Entwistle Community Church and Whitecourt Gospel Fellowship is over, with Entwistle having won nine Sundays out of ten.

The victory will be celebrated by a supper to be held in the basement of the church on Saturday evening, June 7th at 6 p.m. A program featuring Rev. Harold Elliott and ladies trio from Prairie Bible Institute, Three Hills, Alberta, will follow the supper at 7:30 in the auditorium upstairs.

Doreen Scarrott, Mirian Charter and Nancy Markley are the members of the trio and are accompanied at the piano by Miss Dale Stewart. The speaker, Mrs. Elliott, directs the Correspondence School at Prairie and is also a member of the Institute faculty.

The Prairie Bible Institute, which began in 1922 with an enrollment of eight students, now has nearly 1000 in the Bible and High School departments. This Bible Institute has made a vital contribution to the ministry of the church through the training of over 1500 foreign missionaries who are serving in 82 countries under 75 missionary societies. There are nearly 900 pastors and Christian workers in North America.

Letters to the Editor

Editor,
The Western Review,

Dear Sir:

On behalf of the Pembina District Cub and Scout Association I would like to thank all the parents and adults who gave so graciously of their time to make the 1969 Cuboree a great success on Saturday, May 31st at the Pembina Provincial Park. A special thanks to Frank Neil and his head judges and to Bob Doig for a terrific MC job done.

An extra special thanks to Harry Krasowski, Cubmaster of Evansburg for obtaining the use of the park, preparing the grounds and putting up the cub packs in-identification signs.

The cub mothers who looked after the kitchens for food preparations for 250 boys did a superb job and everyone is most grateful to them for their untiring effort, also to the Drayton Valley Scouts who assisted the women in the kitchen.

It is gratifying to see such parent and adult support for our Cub and Scout organization. These boys are the future hopes of our nation and our citizens of tomorrow.

Again a big thanks to all.

Wildwood Ag. Society Preparing for Summer Fair

The Wildwood and District Agricultural Society has been quite active since beginning a new year in February.

The first project was to revise the Fair list and plan the Field Crop Competition for the coming year. A new competition was also planned. This is The Farmstead Beautification Program. The literature on these programs were distributed in March. Farmers are reminded to get entries in my June 30th, 1969. Information may be obtained from the District Agriculturist's office at Evansburg.

On April 18th, a Cash Bingo was held at Wildwood Hall, this proved quite successful.

Many members made canvassing for ads for the Fair Book a very worthwhile project. Canvassing covered the area from Edson to Drayton Valley and north to Mayerthorpe.

A Pancake Supper and Bingo is planned for June 13th at the Wildwood Hall.

A White Elephant Auction Sale is planned for later in June. Watch for this event after the crops are in. Donations of White Elephants will be accepted by any society member.

The Fair Book will be published in June.

A work-bee is planned for early summer at the fairgrounds. This will be for the purpose of cleaning, repairing and improving the fair grounds.

How Does Your Garden Grow?

By Green Thumbs

Although there are many kinds of wild fruits available for picking within a very few miles of Drayton Valley, it is very satisfying to grow a few kinds in your own garden.

One that appears in almost everyone's garden is Rhubarb. Care should be taken in selecting a good variety, as once these plants are established they will produce fine stems every year, so choose a corner of the garden where they won't need to be disturbed. Cultivate around the plants (or crowns) to control weeds, and keep watered in very dry weather.

Rhubarb grows in almost any kind of soil, but like most plants will do much better if fertilized now and then with artificial or well rotted manure.

So that your pies and jellies have a good color, the red type (usually referred to as raspberry rhubarb) is best. Some green varieties have an excellent flavour, so it's just a matter of preference.

Raspberries are a most welcome addition to any garden. They do take up quite a lot of room, so unless your garden patch has ample space, it's not wise to plant them. Once they are well established, they are inclined to "take over" quite an area unless you make a practice of keeping them within bounds.

Raspberries do not usually produce much fruit the first year, in fact it is more helpful to the plant if all blossoms are picked off so that more growth takes place in the root system, instead of getting spent on producing a few berries.

After they are established, it is best to limit each plant to about five or six canes a year, dig all the other shoots up and either make new rows, give them away or just throw them out. If you let every new shoot that comes up mature, you'll have a "jungle" in no time and it will be difficult to pick the fruit. Leave at least 18" between each cluster of canes, in rows not less than two feet apart, more if you use a rototiller.

In the fall cut out the canes that have produced the fruit during the summer, these will be dead in the spring anyway, so it's a good idea to take out these canes at the end of the season, and give the new shoots more room. It is also easier to tell which are the old and new ones in the fall.

More about fruit and bushes and trees next week.

YOUR DENTAL HEALTH

Gum disease (pyorrhea or periadontal disease) can begin early in life. Gum conditions cause the loss of as many teeth in later years as tooth decay does in the early years. Gum disease is the chief cause of tooth loss after the age of 30.

What causes this condition? Actually many things, the most important of which is poor oral hygiene - poor brushing. Failure to get food deposits off the teeth and allowing hard "tartar" deposits to build up certainly causes gum inflammation. These hard deposits on the teeth act the same against the gums as a sliver or splinter acts against your finger - they cause swelling and redness.

A soft poor diet may add to gum disease. Crooked or missing teeth allows food to hit the gums in a wrong way, and may cause gum disease.

Your gums should not bleed when you brush your teeth. This is not normal. If you see heavy deposits of tartar around the necks of your teeth, this is not healthy - have it removed by a dentist. (Look behind your lower teeth) If you see any yellow pus around the necks of your teeth you probably have gum disease.

Gum disease can become very serious. It can destroy tooth sockets causing the loss of teeth. It can cause bad breath also. Infection from diseased gums can sometimes spread to other parts of the body.

To prevent gum disease: (1) brush your teeth and gums right after eating to remove debris, (2) a dentist or dental hygienist can advise you on brushing and remove hard tartar deposits, (3) if you lose a tooth, consult a dentist about possible replacement.

Gum disease can be prevented if you do something about it early enough.

Regular meeting of the School Committee of the County of Parkland No. 31 was held in the County Office on Tuesday, May 20th. Present were Messrs. R.A. Bailey, R. Zander, L.N. Miller, R. Lent, George Mann, Ivan Vowk, William Barth, T.W. Johnson, School Committee members, also Superintendent of Schools Mr. Henry Toews, Assistant Superintendent Mr. W.G. Wilson and Assistant Secretary-Treasurer Mr. A.W. Boychuk.

Moved that Alvin Hubble's request for permission to drive a school bus be referred to the School Bus Committee for attention. Carried.

Mr. L. McKay and Mr. D. Shuttleworth of the Fire Commissioner's Office came to see the School Committee regarding some of the recommendations contained in their reports. This matter was discussed for some time and resolved to the satisfaction of both parties concerned.

PROPOSED BUDGET

The School Committee studied and discussed the proposed budget for 1969 item by item and a tentative budget established.

LODGEPOLE SCHOOL

Mr. D. Yakimovich, Principal of the Lodgepole School, came to see the School Committee regarding organization for the coming year. It is understood that the Lodgepole School will be transfered to the County of Parkland before September 1st, 1969.

Mr. Yakimovich wanted to know about certain matters and conditions if and when the consolidation would be made.

Their present salaries are considerably higher than in the County.

Moved that the matter of salaries to the teachers in Lodgepole, if and when the district is absorbed by the County, be referred to the Salary Negotiating Committee and to the Superintendent for consideration with a view to obtaining a Department of Education isolation bonus if possible. Carried.

There was further discussion on accumulated fringe benefits, teacherage rentals, clerical and library assistance and janitorial work. These matters were discussed at some length and Mr. Yakimovich was advised that the School Committee will consider this further.

SPRUCE GROVE DELEGATION

Mr. S. Hodgson and a delegation from Spruce Grove came to see the School Committee further to the joint agreement for the use of the proposed gymnasium in Spruce Grove. The delegation advised that they have commitments to the extent of $60,000 at the present time.

A lengthy discussion was held on some advance contribution by Spruce Grove before calling for tenders.

The Architect assured the School Committee that he can design the gymnasium in such a manner that the $60,000 Spruce Grove has available would cover the unapproved costs.

Moved that the County Solicitor be instructed to draw up an agreement on the basis that the Village of Spruce Grove deposit $25,000 in trust to the County and effective August 1st, 1969 make monthly payments of $6,000 until the total amount of the unapproved costs is paid. Carried.

Moved that the resolution of the January 7th meeting appointing Mr. Peter Bakker as vice-chairman be rescinded. Carried.

Mr. George Mann was declared acting Vice-President until such time as Mr. Peter Bakker is well enough to return to his duties.

Since the Bus Committee did not have time to investigate the complaint of C.J. Gusek re bus transportation, it was again tabled.

Moved that the School Committee do not consider any changes in the agreement with the Catholic Archdiocese of Edmonton for the lease of their land adjacent to the Spruce Grove school site, at this time. Carried.

THE WESTERN REVIEW

Drayton Valley, Alberta
June 4, 1969

Tomahawk residents take note of the following awards which makes us proud to belong to this community. The Alberta Northwest Territories Division of the Red Cross Society would like to convey it's deepest appreciation and gratitude, to all canvassers and donors of the Community of Tomahawk, for not only achieveing it's quota, but going over the top. This award will be posted in the Tomahawk Post Office for everyone to see and know how they have helped in this great cause.

The Tomahawk Lutheran Ladies Aid held its monthly meeting at the home of Mrs. Mohr, Drayton Valley. There was a very good attendance, and the ladies wish to thank all who helped in giving the church a spring cleaning. It was also decided that next on the agenda will be a good face lifting to the furnace room. They are also donating ten dollars to the Concordia College Shower Guild. New cupboards are to be installed in the Vestry. The nine members, (who have passed their exam and will be confirmed next Sunday) have the Ladies Aid to thank for the flowers which decorated the church last Sunday and also for the flowers this Sunday at the Confirmation ceremony. The next meeting will be at the home of Mrs. Freda Reich on June 26th.

Very glad indeed, and this comes from us all, that Mrs. Marian Jouan has returned home from surgery in Edmonton. Hope you're feeling fine again soon Marian.

Mr. Walter Medd, of Tomahawk, is to be congratulated on his great success in building a beautiful camper. They say it's a real dream, electric lights, lovely upholstery and his wife has even put curtains on the windows. So all you building fans should make a point of seeing this work of art. I'm sure you won't be disappointed. So Walter, be prepared for an onslaught of visitors.

The Tomahawk Community Library Board met on Tuesday, May 27th in the library with seven members present. The secretary reported on the whist drive we had and also that the Tomahawk Fire Department had donated $50 to the library. Donations have been received in memory of Charlie Schoepp and Mrs. Emma Duckett and are still coming in. Mrs. Lenora Welk will be invited to join our library board starting next September and will be on group one.

A discussion took place regarding the amount of supplies to be ordered for the July 1st picnic. The ladies will be asked to bring two pies each as usual.

The library will hold another whist drive on June 21st at 8 p.m. Admission will be 75¢ and the ladies on the board will serve lunch.

Mr. Gary Schoepp of Tomahawk is now the proud owner of a red fastback Mustang, and Mrs. Schoepp (not to be outdone by her son) has purchased a car for herself, a Falcon, gold and black, and all she has to do now, is learn to drive it. Best of luck Mrs. Schoepp, I wish I had your courage.

Fire Negligence Now Criminal Offence

Recent amendments to Alberta's Forests Act make it a criminal offence for anybody to allow a fire to get out of control and cause damage to private or public property.

The Hon. Henry A. Ruste, Minister of Lands and Forests, explains that the act was changed at the last session of the legislative assembly to ensure that anyone responsible for letting a fire get out of control is also responsible for suppression costs and the damage it may cause to other property, including forest lands.

Under the amended act a person is guilty of an offence if he lights a fire without first making sure that it can be kept under control or if he lights a fire when weather conditions are conductive to its spreading. He is also guilty if he fails to take reasonable steps to prevent it from spreading or if he neglects to report immediately, the location of any fire he may see out of control.

The present act also states that the holder of a fire permit must comply with the terms and regulations on the permit. The Minister has the authority to cancel or suspend all permits issued under the act for any part of the province or for the entire province if conditions should warrant such action. Upon notification of the cancellation or suspension of a permit, the holder must immediately extinguish any fires he has started.

Last year Alberta lost $72,000,000 worth of timber and spent approximately $5,500,000 fighting forest fires, most of which had started in settled areas where farmers were burning brush. Four million of this enormous sum was spent on fires which started between May 17th and 25th. Among offenders were the part time farmer who lives in the city and goes out to his farm on weekends. Too often he returns home after burning brush without making absolutely sure that the fire is completely out.

Beef cattle, such as those shown feeding here, play an important role in Canada's livestock industry. Last year commercial livestock marketings were worth $1,291,300,000 -- an all-time high.

1968 Big Year for Livestock Industry

OTTAWA -- Canada's livestock industry had a big year in 1968. More fed cattle, plus gains in the per head value in each livestock class resulted in commercial marketings worth $1,291,300,000 -- an all-time high in dollar value. This came despite reductions in calf, hog and sheep numbers marketed.

Other factors contributing to the year's rosy picture were the improved quality of the livestock marketed.

Total domestic disappearance of beef from commercial cattle marketings, at 1,802,412,000 pounds, was up five per cent above the previous year total, while veal dropped nine per cent. Pork showed a 1.4 per cent increase to 1,114,030,000 pounds. Increased imports sent mutton and lamb disappearance to 87,525,000 pounds.

On the basis of per capita disappearance, beef consumption hit an all-time high of 86.8 pounds per person in 1968, up 2.8 pounds from the previous year level. Veal was down to 6.4 pounds from 7.2 pounds in 1967, while pork consumption showed little change at 53.6 pounds. Mutton and lamb usage rose to 4.2 pounds from 3.6.

Exports of live cattle and calves to the United States increased appreciably, but because of 1967's sharp decline, figures are not significent when compared with those of 1966 and 1965. Live sheep and lamb exports also rose substantially but there was a sharp reduction in exports of mutton and lamb.

With fed cattle prices closer to an export equivalent with the United States, imports of slaughter cattle by domestic packers were practically non-existant from mid-January onwards. Fresh and frozen beef and veal imports were down about 4,000,000 pounds from 1967, when Expo coupled with centennial celebrations created an additional demand.

Imports of bacon and hams were on par with those of 1967, while fresh and frozen pork was sharply higher at 27,800,000 pounds. Mutton and lamb imports, mostly from Australia and New Zealand, rose about 21,000,000 pounds to 71,000,000 pounds mainly due to mutton.

Sheep and lamb production was down about nine per cent and in line with this wool gradings, at 3,552,365 pounds decreased 8.3 per cent.

The Magnolia small boys won their game against Entwistle, but the ladies team beat Darwell. A fair number of people attended which made the day quite successful. With some more practice we hope our teams will improve before the first of July.

LIBRARY NEWS

On June 4th the Drayton Valley Library will be twelve years old. It was on this date in 1957 that Mayor Robert Clarkson declared the library officially opened and borrowed the first book loaned. At that time the library was housed on the school grounds in an unused classroom.

Since that time the book stock and the number of borrowers using the library has steadily increased.

Some of the newly arrived books in the adult section include: "The Battle of Mole Run" written by Howard Mitchell of Mitchell Press. An amusing little book for an hour of light reading. "Uprooted Heather" by Cavaick tells the story of the Selkirk settlers. If you enjoy Muriel Spark don't miss "The Public Image". For history buffs we have "Shoal of Time: History of Hawaii". Mike Gramond who wrote "Big Game Hunting in the West" and "Game Fishing in the West" has written a third book entitled "Game Bird Hunting in the West".

During the holidays the library will be on summer schedule which is: Friday only 3 to 5 and 7 to 9.

LOOK AT THE NEW DATSUNS AROUND TOWN

No other line of imports can match Datsun for a better mix of models—from low priced economy cars to high-performance sports cars, a rugged truck to an even tougher 4-wheel drive. There's a Datsun for everyone . . . the trick is knowing which one's for you.

So many people switched to Datsun, we couldn't keep up with the demand. But things are different now. We've got nearly enough cars and trucks to go around even though more people than ever before are deciding on Datsun.

(a) Datsun 1000 from $1845

2 and 4-door deluxe models — road test and specifications on following page.

(b) Datsun 1600 from $2145

New 2-door or deluxe 4-door sedan or wagon — all with the high-performance 96 HP overhead cam engines good for 100 MPH and 30-35 miles per gallon. The sedans have all-independent suspension. The wagon's foldaway back seat makes way for a 55 cu. ft. loading bay. They have "windows up" ventilation, 4-on-the-floor or automatic and safety features like: impact-absorbing body construction, collapsible steering columns, headrests, disc brakes, heavy padding on dash and interior fittings.

(c) Datsun 1600 and 2000 Sports from $3345

The 1600 sports with a 96 HP OHV engine is easy to drive in town and out, smooth, comfortable, and has a high of over 100 MPH.

It's a real rock-climbing, stream-fording machine with a 145 HP 6-cylinder engine to bull its way anywhere. You get 2 or 4-wheel drive in any gear, PTO, and the toughest all-steel body you ever saw. Hardtop or canopy models available.

Every day is a rush for life at the Canada Department of Agriculture's laboratory at Hull, Quebec, where Dr. Michel Beauregard, two biologists and a technician conduct rabies diagnosis tests. They remove a part of the animal's brain and stain it with a fluorescent antibody. The antibody will attach itself to the rabies virus in the brain tissue to form detectable clusters. A cluster indicates a brain lesion, which means the animal has rabies. This not-too-happy boxer is receiving a rabies protection injection by Dr. A.L. Kassirer.

Marketing Boards Are Not Government Boards

Marketing boards are established in Alberta to promote, control and regulate the marketings of agricultural products. They are not government goards, says D.H. McCallum, chairman of the Agricultural Products Marketing Council.

He explains that a marketing board cannot be formed until a vote has been taken among all producers who will be affected by it. Only if the majority of those who are eligible to vote are in favor of a marketing board can it be established.

To get the board functioning, the Marketing Council appoints a provisional board whose members cannot hold office for more than 18 months. From then on all board members are elected by the producers themselves. Board members are entirely responsible for administering and carrying out board regulations.

In Alberta all boards such as those regulating the marketing of eggs, broilers, turkeys and vegetables for processing have the authority, under the Marketing of Agricultural Products Act, to require those involved in producing or marketing a regulated product to register their names and addresses with the board, if requested to do so. Anyone who refuses to comply with this regulations could be liable to a stiff penalty under the Marketing of Agricultural Products Act.

Cub and Scout News

Cubs from Drayton Valley will be attending a campout at the Lutheran Church Camp on Lake Isle on the weekend of June 13th to 15th. In case of rain this campout will be the following weekend, June 20th to 22nd. The Cubs are bringing forms home about this camp, and these forms must be retumed to the Cubmaster by June 9th.

The proposed schedule for the campout this year is changed a great deal from past camps, and should prove much more challenging and enjoyable to the boys. The success of this campout however, depends entirely on the number of fathers willing to help, and if enough are not willing to do so there will be no camp.

At least 10 fathers are needed at the campsite at all times, and any father able to spend any time during the weekend in question at the camp is asked to contact his son's cubmaster as soon as possible and to indicate on the form provided at which time he will be able to attend.

LETTER TO THE EDITOR

The Editor,
The Western Review,
Drayton Valley

Dear Editor:

St. Anthony's Students' Union and the Drayton Valley Junior High would like to extend our sincere thanks to Mr. Nelson for the use of his Texaco garage, which we used for our car wash recently. We would also like to thank all the people who contributed to the car wash by getting their cars washed.

We would also like to thank the chaparones, teachers and all those who attended our prom held on May 31st. A very special acknowledgement is extended to Mr. McDonald for making our prom successful. Without his assistance the prom would not have been made possible.

Again, "thank you" to everyone.

Sincerely,
St. Anthony's Students' Union
Drayton Valley Junior High

After their cars collided, one of the men handed the other a flask and said: "Maybe you'd like a nip to calm your nerves?"

"Thanks," he said, and took a guzzle. "Here, you have one too" he added, handing him the whiskey.

I'd rather not" he replied, "At least not until after the police have been here!"

New Approach by 4-H Club

A new approach to the evaluation and sale of 4-H beef calves is to be tried by the twenty-five member Czar 4-H Beef Club this year.

The club will show calves raised by members at the regular Achievement Day on June 5th at Czar. The twenty-five calves will be sold on a tender basis to an Edmonton packing plant and the grand champion animal will be selected on the basis of cutability and retail value of the carcass. Also, the price paid to each member for his calf will be determined by the retail value of the animal's carcass.

The new approach to the beef project by the Czar 4-H Beef Club is under the direction of Dr. Roy T. Berg, Animal Science Department, University of Alberta, Edmonton, in co-operation with the Livestock Production Division, Canada Department of Agriculture and the 4-H and Junior Forest Warden Branch.

In Alberta there are some 5,000 4-H members working through 261 clubs on a variety of projects related to beef.

All Residents Must Register For Alberta Health Plan

Hon. Dr. J. D. Ross, Alberta Minister of Health, has announced that effective July 1st of this year, all residents of Alberta will be covered by Alberta Medicare and that everyone must register for the Alberta Health Care Insurance Plan by that date. Benefits under the plan include all basic health services, which are medical, surgical and obstetrical coverage; specified oral surgery performed by a dental surgeon; optometric refractive examinations; and chiropractic, podiatric and osteopathic services.

To facilitate registration, members of group health insurance plans with M.S.I. or other carriers are being provided with the necessary forms by their group leaders. Persons enrolled on an individual basis with the Alberta Health Plan or M.S.I. are receiving registration forms by mail, and, where possible, the same service is being provided for enrollees with other insurance companies. For those residents who are not included in any of these categories, registration forms are available at Treasury Branches, chartered banks, county and municipal district offices and hospitals. On registration, a resident receives an identity card showing his name and registration number as well as those of his dependents. Anyone who fails to register is guilty of an offence and is liable to a fine.

The annual premium for a single person under the plan is $60, for a family, $120. Group members will have their premium collected monthly, individual registrants will pay quarterly. Payment is not made at the time of registration. All residents will be billed at a later date.

Subsidies of one-half of the premium payable are available to those whose taxable income (or the combined taxable income of himself and his spouse) for the preceeding year was not more than $500. Applications for subsidy will be printed on the first premium notice mailed to non-group members and will be available to group members through their group representatives. Recipients of assistance benefits from the Department of Social Development (formerly the Department of Public Welfare) will be automatically registered by the Commission and should not register themselves.

Practitioners who provide basic health services as listed under the Plan may submit a claim to the Commission or may bill the patient direct. If the latter, the Commission will reimburse the patient.

The Alberta Blue Cross Plan and private insurance companies may continue to provide those health services not considered basic, such as ambulance, drugs, naturopathic services, prosthetic appliances and hospital benefits not included in the Alberta Hospitalization Benefits Plan, for an additional premium charge.

A folder listing all details of the Alberta Health Care Insurance Plan has been distributed to all residences in the province. Anyone who has not received a copy can obtain one from those offices which distribute registration forms. For their own benefit, all Albertans are urged to read this informative brochure carefully.

Recreation Round-Up

by
Mike Gormley

POOL PROGRAM PROGRESS

The Drayton Valley Swimming Pool has been in operation for ten days now and to date the attendance has averaged well over 500 patrons daily. This figure is well above any previous year at this time.

The school swimming program is progressing very satisfactorily with a maximum number of students from the Junior High School and the Separate School taking training in swimming. These school classes are held daily Monday through Friday during the morning and afternoon.

Classes for Tiny Tots are presently in progress and will continue throughout the month of June. This phase of instruction is scheduled for the noon hour each day. For further information about this part of the pool program call at or phone the pool office during any time the facility is open.

Regular swimming instruction in the Red Cross Water Safety Program will be offered on the same basis as in past years, starting Monday, July 7th and continuing through until the end of August. Instruction will be offered at all levels of the Red Cross Program. For further information in this regard, contact the pool cashier at the pool office. Well over four hundred persons were enrolled in this instruction program last year and we fully expect to equal this figure in 1969.

The County of Parkland is offering Red Cross swimming instruction at the local pool from 8 a.m. to 9 a.m. for six weeks during the coming summer. For further information on this program contact the Parkland Regional Recreation Council at 777-2211 in Stony Plain.

Later in the summer, at least one set of classes will be offered for those seeking to further themselves in the Royal Life Saving Society program. There will be more on this later.

Our swimming program seems to be off to a real good start and from here it looks like one of our best seasons coming up.

FASTBALL

The Senior High School Girls' Fastball Team coached by Bruce Cable has been entered in the Parkland Ladies' Fastball League with teams from Tomahawk, Entwistle and Seba Beach. The league schedule opens on June 3rd and closes July 14th. Each team plays nine games during the schedule. The local team has played two games already this season, winning and losing in a home and home series with Darwell.

BASEBALL

A team from Drayton Valley at the Bantam level will play in the Parkland Bantam Baseball League during the coming season Other teams in the league are Moon Lake, Tomahawk, Entwistle and Seba Beach. The schedule begins on June 2nd and ends July 11th. However, the Drayton team will be unable to play in this league until they have completed their schedule in the Oilfield Bantam Baseball League. This schedule ends on June 9th, and postponed games in the Parkland League will be caught up after that date.

RECREATION BOARD MEETING

The Drayton Valley Recreation Board held its regular monthly meeting on June 2nd in the Recreation Office. The chief items of business dealt with the swimming pool operation and program and the summer figure skating and hockey schools in respect to the general operation of the Civic Centre over the summer months.

A letter of resignation from the Board was received from Hugh MacKenzie and read to the meeting. Mr. MacKenzie has served long and faithfully on the Board and certainly will be sadly missed in this organization. Mr. MacKenzie is an employee with Imperial Oil and has been transfered to Redwater and will be leaving Drayton Valley in the very near future.

Members of the Drayton Valley Recreation Board extend to Hugh and his family their best wishes for a bright future in their new home.

A man fell out of a 10-story window. He hit with a thud, a crowd gathered, and a witness rushed over and said to him, "What's happened?"

"I dunno," said the man, standing and dusting himself off. "I just got here myself."

SUN FUN - It's the time of year again when people are thinking about roasting their flesh to a golden brown.

Keep in mind that too much tanning may cause premature aging of the skin and may contribute to skin cancer. The Food and Drug Directorate also reports that too much sunlight could also damage the eyes.

Suntanning lotions, creams, and sprays act like a screen to filter out the undesirable rays.

You will burn faster on a beach where sand, water and wind reflect ultra violet rays, than on your back lawn. You burn faster in clean country air than in city smog which screens out ultra violet rays.

A good suntan preparation screens out rays which cause burning. Trial and error may have to be used to find the best one for you.

Read the label. Some products are designed to promote tanning and retard burning; others give an artificial tan indoors; others protect the skin from freckling or tanning at all.

Enjoy the sun but use some common sense.

Before too long, you'll be hearing from someone else in this column. There will be a new home economist in the Strathcona and Stony Plain offices toward the end of June.

An unbiased person is one who has the same bias as you have.
